

IFBF The International Flow Battery Forum™

IFBF 2012

Munich, Germany
Tuesday - Wednesday
26th and 27th June

We are now seeking paper and poster presentations for IFBF 2012. We would welcome papers that contribute to the following sessions:

- General Flow Battery Research & Development
 - Funding & Finance
 - Novel Chemistry Developments and Research
 - Technical Developments & Advances
 - Supply & Cost of Raw Materials & Components
 - Demonstration Projects (with performance data)
 - Regulatory, Environmental, Health and Safety Issues
 - Flow Batteries in Commercial Operation
 - Manufacturing
 - Commercialisation & Market Potential
 - Fundamental Scientific & Technical Issues

Abstracts up to 500 words should be submitted to papers@flowbatteryforum.com by 31st January 2012. Abstracts submitted before 31st December, will be given priority. A decision on acceptance will be made by 13th February 2012.

"Valuable speakers from all over the world brought together."

"Broad program that encompasses research to commercial aspects."

"Opportunity to discuss commercial issues and explore and create business links."

"Meeting the active research groups in the field in one place."
