

## Guidelines for a poster presentation - on a new type of flow battery

Charles Bradley

Beadley Electric Power Company, Yonkers, New York, USA

Your Poster should be no larger than A0 size (portrait). (1189 mm high \* 841 mm wide). Please use a margin of 50 mm on all sides. The poster should have a white background. If you do not wish to use the full space, please use A1.

Please include the IFBF logo, blue on white at a size of 100 mm high, set 50 mm from the right margin at the top right hand corner of your poster. The logo can be found [here](#).

At the top of your poster, please give the title with capitalisation only for the first word and for proper names, followed by the authors' names, with the presenting author shown first. Please use First name, Family name. You should also give your company or institution with your contact details.

Please set out the contents of your poster to be clearly legible and informative. Poster presenters have the option to submit a synopsis (between 150 words and 2 pages including illustrations) of their poster to be published in the proceedings. Please follow the guidelines for papers as shown on the instructions for [mini papers](#), and note the deadline for submission which is also 19 May 2017.

Please ensure you make arrangements to print your poster yourself and bring it with you to the conference venue. We will provide a poster board and fixing materials.

We must receive an electronic file (unlocked Microsoft publisher or adobe file preferred) by Friday 19 May 2017 to ensure the poster complies with the conditions of layout as shown above and to place a link to your poster on the website shortly after the conference. Please submit your poster presentation and include your 2 page mini paper using your [Oxford Abstracts](#) email address and password.

If you are unable to meet this deadline or have any questions please contact Aud Heyden: [info@flowbatteryforum.com](mailto:info@flowbatteryforum.com) or tel: +44 (0)1666 840948.
